

WORKSHEET FOR KIDNEY SESSION 1.

1. How many stages of chronic kidney disease are there?
2. What tests are needed to stage CKD?
3. Identify 4 major causes of chronic kidney disease
4. Case study 1
What stage of CKD does she have?
What is likely cause?
What would you say to her?
How would you manage this patient?
5. Case study 2
What stage of CKD does he have?
What is likely cause?
What would you say to him?
How would you manage this patient?
6. Case study 3
What should you do?
7. Reflection
Think about the questions that people with kidney disease might have during the COVID19 outbreak. Write down 4 questions and then look at the links on the slide I have given you to see if the questions can be answered.
